Week 3 Spring Term 2

MESSAGE FROM FARZANA

Thank you to everyone who came in for our Mother's day event last week, it was wonderful to see so many of you in school! We enjoyed celebrating success with the special people in our children's families.

This week has been Science Week and the children have been involved with investigating scientific concepts as well as meeting a variety of creatures great and small!

Behind the scenes, we are writing your child's end of term progress report therefore there will not be an Earwig observation for this week as a result.

The end of term reports will be sent home on Thursday 28 March.

If you have any questions or would like to get in touch, you can always ring the school on 0161 655 0220 or email the school office (office@newlands.rochdale.sch.uk).

Kind regards from Farzana.

OUR LEARNING

This week has been Science Week. It has been a really busy week with lots of investigating, experimenting and exploring. Each class conducted their own science experiments, and then shared them with other classes around school. At the beginning of the week we had a visit from Zoolab, who brought some interesting animals and creatures for us to see.

OUR LEARNING

Last week in school we held our Mothers Day Celebration event. It was so lovely to see so many special guests join us throughout the day.

All the children in school took part in lots of Mothers Day themed activities, such as card making. Many spent time with our visitors completing art activities in the hall, playing games in the courtyard, and enjoying refreshments in our entrance area.

CHILD & FAMILY SUPPORT

Workshops for parents/carers of Young People with Autism Spectrum Conditions (ASC)

To book on to any of the workshops below, please contact CAMHS by calling **01706 676000** and specify the date of the workshop you would like to book onto.

Children do not need to be open to CAMHS for parents/carers to attend the workshops but children must have a diagnosis of ASC/ASD or Asperger's Syndrome.

Understanding the ASC Diagnosis

This workshop gives an introduction to understanding the diagnosis. It aims to improve parents/carers' understanding of their child and the different way they may view the world. Children must have a diagnosis of ASC or Asperger's Syndrome for parents/carers to attend.

Understanding and Managing Behaviour

This is a one-part programme which aims to equip parents/carers with a broader understanding of why children with Autism Spectrum Conditions display behaviours that challenge and to learn about strategies to manage them.

Understanding and Managing Anxiety

This is a one session programme which aims to equip parents/carers with a greater understanding of why children with Autism Spectrum Conditions experience anxiety and the strategies that may be helpful to manage this.

Sensory Processing

This is a one session programme which discusses the theory behind sensory processing difficulties. Strategies for both home and school are provided to help manage the child's sensory sensitivities and sensory seeking behaviours. Children must have a diagnosis of ASC, Asperger's Syndrome or ADHD for parents/carers to attend.

ASC Workshops

January 2024 - July 2024

All workshops run from 9.30-12.30. We run four face-to-face Workshops for families of young people with Social Communication Difficulties.

You must ring to confirm your place as there are limited spaces. Call 01706 676 000.
